

SITE COMPLIANCE CERTIFICATE

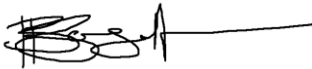

BASE STATION NUMBER: 1544
HOUT BAY SECONDARY SCHOOL

An EMF exposure assessment of this base station site has been performed. The results were compared to the ICNIRP guidelines. ICNIRP specifies occupational (RF trained personnel) and general public exposure limits and both of these were considered.

A further ICNIRP requirement is that adequate administrative controls be in place to avoid over exposure.

“Provisionally Compliant” sites require minor modifications and “Compliant” sites have all the required measures in place to comply with ICNIRP.

SITE COMPLIANCE STATUS: COMPLIANT

 The logo for EMSS Consulting (Pty) Ltd. It features a stylized blue 'E' and 'M' followed by 'EMSS' in a bold, sans-serif font. Below this, 'EMSS CONSULTING (PTY) LTD' is written in a smaller font on a blue background with a wavy bottom edge.	Signed by:
